

Post Interview/ Meeting Note Crab Shack Kitchen Web Application Development

Team __Mr. Krabs__ Date __01/24/2016__ Scientist involved? **Yes** No

Attendees: Colton, Keagan, Nicole, Jiaying, Massimo, Sachin

I. What is the communication media of this meeting?

GoToMeeting

II. How long was this meeting?

6pm - 6:25pm

III. What stage of the development process are you at?

1. **Gathering app requirements**
2. **Delineate potential app users**
3. **Determine tasks to perform on app**
4. **Determine users' needs**
5. Delineate usability issues
6. Prototype design
7. Refinement of design
8. Coding
9. Implement app
10. Design usability test
11. Analyze usability test results

IV. Important Points during Meeting

- 1) The app will just be used to compare data that was collected from NfN and combine several instances of record attempts into one final record.

- 2) Data collected from NfN is stored in a CSV and shared in a Google Drive. Dean will be sharing the folder with us shortly.

- 3) There will be approximately 4 - 5 users at the collection facility using this application. HOWEVER, NfN is interested in using this for other organizations in the future.

- 4) The future of this application is dependent on how fast the scientists can evaluate the record. They need to be able to evaluate, edit, and finalize the record in *less* time than they could type all of the data from scratch.
