IV. Important Points during Meeting

- 1) Home Page: Inform user of next steps and options. It is currently not clear how to "begin" processing specimens. Possible solution is to move Export option to the bottom and add an intro description to prompt user to begin.
- 2) Make the landing page a login screen instead of using a modal.
- 3) Process Page
 - a. Move thumbnails below everything to stretch across full page
 - b. Maybe move "final" column to beginning of row so it is the main focus.
 - c. Drag and drop might be more intuitive if you can only drag to "final" field
