

Alice Rowe

Gender: Female

Age: 11

Alice is a seventh grade middle school student who is relatively intelligent. She has grown up using technology and has a smart phone. Among her classes is a biology class which is covering the animal kingdom and has sections on the different animal types, such as birds, fish, and insects. Her class is currently studying insects and is using ants as one of its topics.

Shane Osborn

Gender: Male

Age: 17

Shane is a Junior in highschool who is trying to become a mechanic. He has a slight interest in nature, but is more at home working in his auto and shop classes than in his math courses. His stats class wants all of it's students to participate in some kind of data collection project and he decided to look at citizen science apps.
