

Design Change Document

- Omit upgrade account tab - use Spring Security admin instead
 - This can be handled by the scientists/those with admin rights instead of a user referral system.
 - Rationale: Easier to implement, fits more with implementation framework
- Omit messages tab - handle through email
 - Simplifies communication without having to create a messaging system.
 - Rationale: Simplification of overall design.
- Organize
 - Basic users will have tabs Home & Upload Video
 - Admin users will have tabs Home & Browse Videos
 - Rationale: Consequence of above changes.
