

Usability Tests:

No comments

Design changes:

General design:

Red is alarming!

Keep it simple, blank background

Some things blend in too much

Main page:

Uploaded videos still confusing

Change to submitted/saved/previous videos

Order of accordions: Website info, how to make a video, upload video?, preventative measures, saved/submitted videos.

Change Upload tab to Upload video  
Maybe?

Login/logout should be moved to maybe  
the top of the page, be more different so  
they can be differentiated

Upload page:  
Can't upload multiple videos

Professional view:

Video list needs to be reworked

Watch video, background gets in the way

Make it more clear what the radio  
buttons mean

Change "rate response" to "feedback"
