

- Make sure it's ok for a professor to ask the age of students
- Make sure to ask how many passengers for each driving trip
- Notify user if a trip has been "missed"
- Needs to know if students owns a vehicle (optional: household size, occupation, etc)
- Possibly have separate submits for first and last name to make sure everyone puts in the same format
- Just use Tech email for now so he can know the ID of the student easily
- Wants to see the entire trip view of one person. 😊
