Hello Dr.Pastel,

I would like to submit the topic for paper and presentation. The details are:

Name: Tanmayee Kshirsagar

Username : thkshirs

Topic title: HCI in hotels and restaurants

Description : This topic deals with use of HCI in hotels and restaurants. In Hotels, HCI can be used in various departments of check in, room booking,allocation of rooms to the customer based on the requirements and availability. In restaurants it can be used to order the food based on different menus and allocating staff to various tables considering their shifts,customer feedback.

Application preference list:

1. ACL Prevention tutor
2. Wet/Dry Mapping
3. Monitoring mass coral spawning events on Australia's coral reefs
4. Oklahoma blue thumb volunteer monitoring app
5. Spatio-Temporal Video Submissions on the Keweenaw Time Traveler Explore App
6. Intersection Turning Movement Volume Counting System

Thank you.

Regards,

Tanmayee H. Kshirsagar,
Graduate Student,

Hi Tanmayee,

Interesting topic. Perhaps the title should be "Usability in Hotels and Restaurants." Will you be able to find academic references for your topic paper? If you need to change the topic later in the semester that is OK.

The ACL project already has two grad students on it, so you will work with team 4 on the Wet/Dry Mapping app. Another grad student, Katy Roose, is also working on the project.

Your grad number is 8.

See you in class,
Robert
