

## **Design Change Document Team 5 - Traffic Counters**

### **Feedback from Scientist**

- Make sure that the web application runs without error on iOS (no scaling issues).

### **Feedback from Grad Student**

- Make the color of the buttons change after selecting a different vehicle type.

### **Feedback from HU students**

- Look into adding a walkthrough tutorial after creating a new user account so that users can learn how to collect data using the interface before starting their first session.
