Dragonflies and Chris Goforth Meeting Notes

This meeting was held January 31 at 5:00pm for 15 minutes in Zoom.

Attendance:

1. Ann Ciesla
2. Daniel Rutkowski
3. Justin Williams
4. Ben Metzger
5. Corey Daly
6. Joshua Hansen
7. Dan Wood
8. Lamia Alam
9. Chris Goforth

Discussion Items:

1. What is the role of the facilitators? What is their interaction with the app?
    a. Show the kids how to use the app
    b. Could be inputting data
    c. Kids are as hands on as possible
2. Two separate forms: one for weather data and one for dragonfly count?
    a. Data gets combined eventually so together would be good
    b. Could have two different screens, or just one
    c. On the backend, one sheet of all data points
3. Are the facilitators or the campers entering data into the app?
    a. Mostly be the students (85-90% of the time)
4. What environment will users be inputting data? Ex) outside, in a lab
    a. Up to us and our capabilities
    b. Be able to store data in the field and upload with internet later
    c. Otherwise enter the data into the app when they get back
5. What devices will be used to input data? Ex) computer, iPad, paper
    a. All groups have iPads - usable on an iPad would be great
    b. Going to a website on the iPad would be good too
    c. Would be using an iPad no matter the environment
6. What is the sequence of events that will happen when a user interacts with the app?
    a. Groups collect data points in the field either into the app or workbook (paper) while there
    b. Data will always be printed on paper, regardless of the app
    c. Data is uploaded to the app either in the field or back at the museum
    d. Data is analyzed by the scientists
