#### Notes

- Good High level layout
- Need to improve on specific page layout design
- Commit to using grails language feature
  - Use tag library
  - Look at guide online
- Design mobile version first
  - Our design was a bit wide to be implemented on mobile
- Use twitter bootstrap
- Decide if we need to use help features?
  - Explaining apps purpose
  - Explaining calculator
  - Do we need a help page?
  - \*\*\*\*\* We have decide with our scientist to add blurbs on each page explaining the page
- Do we need default values on calculator
  - \*\*\*\*\*No

## Implementation priorities

1. Language selection/homepage/overall design
  - a. Build apps based on automatic language selection
2. Calculator page/Navigation
3. Information pages/products
4. Video imbedding

\*\*\* This list has been agreed on by our scientist
