Post interview discussion.

Action:
      Post interview discussion.
      App Discription 2

Decisions:
      Talking about GAIA and its API.
      Sliders for wet dry. and the subjectivity involved.
      How to record wet dry toggle data. is it every GPS point or is it one toggle for stream
      Were thinking about having a button. Hit when its wet then hit when dry so it can be tagged as such on the gps point.
