

# Design Review Notes

Date: 02/15/2022

- Everyone is in attendance!
- Tell Ricardo about team website at tomorrow's meeting
- High expectations for this team/project (don't mess up!)
- Align Tab Changes
  - Pastel approves separate Align tab (for aligning te scene)
  - Reiterates explanation for aligning flight paths to scene
    - Solution is to align scene to inspection points instead
- Analyze Tab Changes
  - Likes side panel
  - Likes changes to highlighting paths and making them visible (make buttons shaded/unshaded)
- Discussed ideas for user help
  - New tab for an interactive help page (replica of analyze tab but info popup for each side menu option instead of visual)
  - Strongly recommended use of tooltips
- Priority list
  1. Display room and path
  2. Aligning paths
  3. Adding inspection points
  4. Working on path highlights/attributes and visualization
  5. User help
  6. Upload view
