Location: Done over Zoom

Team Members & Roles

- Austin Gennrich - Host
- Michael Romero - Notes
- Colin Dohne - Questions
- Jordan Bramer - Notes
- Kyle McIntyre - Questions
- Sid Regmi - Questions

Questions

- Give us an overview of what you would like the app to do
- Who are the intended users of the app?
- What features must the app have?
- What extra features would you like to have time permitting?
- Is the focus of the app more classification or education?
- How are you thinking the educational section should be laid out?
 - Separate from the user reporting, or integrated somehow?
- Are there any existing projects that this is extending on?
 - Existing servers or other technical resources? Research results?
- “Help users locate” - mean show them where the greenspace is or assist them in finding new ones to document?
 - Map of existing locations?
- Is the app intended to be more visual or text focused?
- Are users classifying the information they collect or information provided by the app, or both?

- Are there any existing apps/websites that have a similar look/feel to what you are hoping to achieve with this app?
- Do you have any documents that you could share with us that would help guide what you want the app experience to be like?
 - Flyers, forms, spreadsheets, websites?
- Is there anything else you would like to add to what we've discussed so far?
- Are there any questions you have for us?
- Our next meeting will be Tuesday, January 25 at 4 pm, will this date and time still work for you?
