<p style="text-align: center;"><u>Pre-interview 2 Document</u></p>

Scientists: Jesse Alger & Mary Ellen Miller

Date of interview: January 25, Wednesday, 1/25/2023, at 5 pm

Location: Done over Zoom

<u>Team Members & Roles</u>

- Austin Gennrich - Host
- Michael Romero - Notes
- Colin Dohne - Questions
- Jordan Bramer - Notes
- Kyle McIntyre - Questions
- Sid Regmi - Questions

<u>Questions</u>

- What should we call them? "Urban Green Stormwater Infrastructure" is kind of long, do you have alternative terms or different names that refer to this?
- Map based, look at specific areas you have already researched?
- Table based: reserved for researchers, has all the information about every point on the map for easier reading?
- What details about green water infrastructure do you think is most important for the user to learn about?
  - With our audience age group in mind
- Recent example projects that we should include?
  - [https://www.fieldsintrust.org/green-space-index](https://www.fieldsintrust.org/green-space-index)
- What "types" of green stormwater infrastructure are there?
  - Are there specific categories
  - Which ones are most common/unique to michigan?
  - Any that will be excluded from your research, not local to Michigan?
- Expansion plans?
  - outside of Michigan?

- - Stay inside? Go north?
- What is the process for identifying where more green infrastructure is needed?
- What does green infrastructure protect people/buildings/infrastructure/nature from?
- Verify types of data to be included
  - Educational pages
  - GPS
  - Photo upload
  - Categorization (...of the user photos)
  - Stretch goals
    - (Accounts)
    - Usernames of individuals
    - Number of uploads to database
- Is there an existing database that you are already using to hold the data?
  - Could we connect the app to it? MTU hosted?
- Is there a specific "Call to action" at the end of the education part that you would like included to further engage the user?
  - Green space social movements?
- Is there anything that the average person could do to support more green infrastructure?
  - Ex) Apply green infrastructure to their property
- What should we call the app?
  - Michigan Green spaces?
  - I speak for the trees?
  - Urban greening?
  - Other ideas?
- Did you figure out what that example app was called that we discussed last time?
- Could you get the supporting documents to us by the end of the week?
- Would you like to have regular meeting times going forward into the future?
  - Checkup on our progress, clear up any questions
  - weekly/monthly
