Jamarri Jackson

Action Items:
- Finish Interaction design document: all attending members
- Rapid sketching for UI design: Erik van der Grijn
- Create and Finish Presentation for thurs Feb-2: all members not Erik van der Grijn
- Creating mockups for presentation: all attending members

Discussions, Decisions, Rationale:
- Discussion about app layout
  - Home page will have following information:
    - Navbar with events, profile, admin, and others
    - Teams page will be integrated into home page
    - Most recently made events, past ones being archived to the events page after enough time has passed (7 days?)
  - Profile page will have the following information
    - Recent characters, stages, events
    - Picture
    - Other information
  - Admin page will have data and controls over all users of the app
  - Events page will have all data related to past events
  - Create data page will have data for recent events with the option to add match data

Next Steps:
- Finish future documents required
- Continue to update mockups
