Questions:

- Reception at competitions
 - Do we need to consider offline use?
- A one-stop website for both mobile and pc
- What does the data analysis side look like?
 - Should a player's crew data be shown in a separate table from individual matches?
 - Able to view player data as well as tournament data separately
- What does a user workflow look like?
 - Major phases
- Will players only be able to enter data for themselves, or can they fill in and enter data for other players?
 - Also applies to editing or removing data, only admin?
