1. Scientist/Client Names: David Mifsud

2. Meeting Date and Time: 1/16/23 5pm

3. Meeting location or media: by zoom https://michigantech.zoom.us/j/2638583845

4. List of team members and interview roles

    a. Question asker : Ben Walby

    b. Note Takers: Spencer Phillips Jane Sinclair

    c. Supplementary question askers: Wade Canavan, Jake Wilkins , Ben Walby, Gabe Smit, Katie Ulinski, Spencer Phillips, Jane Sinclair

    d. Grad Students: Blade Frisch, Sanskriti Bokde

5. List of questions in expected order to be asked

    a. **Is there a pre-existing mobile app?**

        i. **What do you like about the current app?**

        ii. **Do you have any expectations for this, possibly new, mobile app?**

    b. **Walk us through what you imagine a user will do in order to document something.**

    c. **Who are the users of your app? Who is your target demographic?**

        i. **What will each user type be using the app for?**

    d. **What are the current issues with the observation portion of the application?**

        i. **Are there any changes you would like to make to the user input data?**

        ii. **Will there be differences in cataloging different species?**

    e. **When or where will the app be used?**

        i. **What difficulties will arise from using the app from these times/places?**

    f. **What information or content does the app show the user?**

g.   **Do you have any documents such as flyers, forms, or spreadsheets that you can share with us?**

h.   **If there is no**

6.   Ask if there is any additional information that he would like to share, or questions for us about the project?

7.   Thank David, the scientist, for the interview!
