02/16/21

----- Intro section

- Should mention to Kristen in passing the existence of the website at some point
- Look out for the heuristic review whenever Naveen delivers it
- Encouraged out-of-class work jams, in-class scrum meetings or asking questions

----- Feedback -----

Privileged user can override current trail conditions

Help section:
How to report
How to view recent reports
The rating system needs an explanation. -- Have something next to the submission too
      Anchor it. Pastel thinks necessary. Add explanation to anchor.

What we should implement:
Online only web app
Deploy early
      Tomcat credentials within the week.
Use Grails.

----- Priority List: -----
1. Trail report form
2. Scientist verification
3. Date range filtering
4. Home page with scientist control
5. Sensor data
6. Downloading sensor data

Finish through 4 or 5 hopefully
