

## Post Interview Notes for 2/11/2025

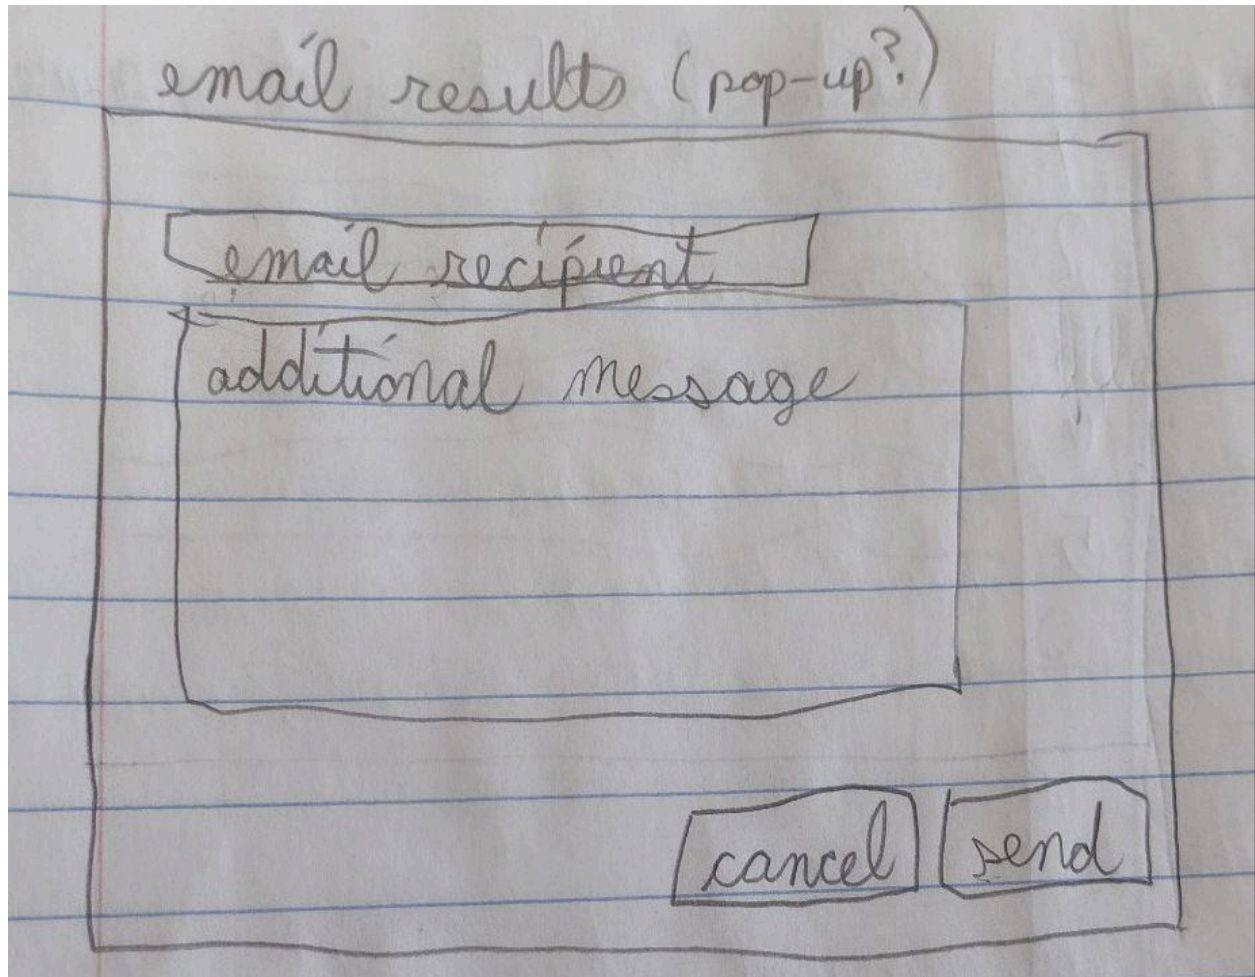

- Email results to another person
- Project name and Location not required but should be in output if inputted
- We talked to our scientist and he has requested us to record emails and make accounts for the users if they want to keep track of previous searches. The accounts will be optional and you can sign in as a guest for those who are simply using the website a few times or have no need to save the information.

Design for email:

Login page:

A hand-drawn sketch of a login page on lined paper. The word "login" is written at the top left. Below it, there are two input fields: one labeled "email" and one labeled "password". Below the "password" field, there are two buttons: "forgot password" and "register". At the bottom, there are two more buttons: "sign in as guest" and "sign in".
