

For Future use of the website or if anyone wants to add onto it.

- Figure out the download button
- Figure out how to mail the results
- Add all of the possible tables or fix the sorting algorithm and come up with a better way to sort and get the results.
- Finish sprucing up the website so that it looks better.
- Add in extra features for admin
- Fix how the tables look since they are bland with
- Keep track of previous 10 queries
- Add a better help page so that users who don't know as much are able to still navigate the site.
- Implement a history feature for logged in users to allow them to return to their previous searches.
